

THEME DREAM SEMINAR

MATHY HEMSANI

- 1.- In this seminar we will review Jung's notions of dreams including the structure, content and purpose.
- 2.- In addition, we will review the concepts of the EGO, THE DREAM EGO, COMPLEX AND ARCHETYPE.
- 3.-We will look at how dreams can be helpful in arriving at a diagnosis as well as at a prognosis for the dreamer.
- 4.-We will examine the significance of Jung's ideas about symbols which appear in dreams using several clinical examples. This will include the notion of differentiation of images on the subjective and objective level.
- 5.-We will also look at the difference between reductive and prospective attitudes toward dreams.
